RE: Kansas City Facility  
MOD049574692

Dear Mr. Helfrich:

In accordance with your conversation with Mrs. Harris of my staff on March 23, 1982, this letter will officially advise you that the above facility is determined to be non-regulated and has been deleted from the Region VII RCRA permit system.

By carbon copy of this letter we have also advised the Waste Management Program of Missouri Department of Natural Resources that this action has been taken.

Although your company does not fall into the category of a hazardous waste generator or facility under the federal law and regulations, this does not dismiss you from the necessity to comply with the Missouri Solid and Hazardous Waste Laws and Regulations, 260.200 - 260.240 RSMo and 260.350 - 260.430 RSMo respectively. If you have any questions concerning this, please contact the Waste Management Program of the Missouri Department of Natural Resources at 314-751-3241.

Please accept our apologies for any inconvenience our delay in formalizing this action may have caused you.

Sincerely yours,

Robert L. Morby, Chief  
Waste Management Branch  
Air and Waste Management Division
